Intense, personal, haunting, sinister. For those who crave the avant-garde experimentations of early Industrial music. 10 MP3 Songs ELECTRONIC: Experimental, ELECTRONIC: Industrial Details: The follow up to 2005s intense and haunting SirenWire69 sees Matthews further develop her unusual musical sensibilities. The equally effective and engaging Bruiser is in some ways a more startling accomplishment than its predecessor with new instruments and musical styles added to the experimental mix. From the out and out industrial barrage of Hushed Corrosive, to the sinister undertow of Lifelore, this cd winds its way through the medieval-esque folk recorders of Fortune, insistent rhythmic guitars of Flinch, hypnotic piano of Ellipse-Dream and the gentle beauty of Summers Over, all bookended by the fragile sadness of Mbox and Mbox 2 Bruiser is an impressively diverse collection of musical experimentations. A starkly personal exploration that challenges you to uncover its secrets over multiple listens. Its hardly surprising then that 2006 has proven to be a hugely significant year for Matthews. Her work has been showcased in galleries and festivals throughout Europe, America and Asia. She has received radio airplay in over 70 countries, has collaborated with poets and film-makers and contributed to a variety of compilations. Bruiser promises to not just build on these considerable achievements but leave its own indelible mark...
