Details: The long awaited debut album from The Autonomist. An Ambient, downtempo, trip hop, and hip hop extravaganza. A complete audio whirlwind of mind altering beats and luscious synths to cool, calm and relax your mind. Songs from the Subconscious tells the audio story of The Autonomist and his constant transitions in life and mind. The sculpting of this album has been an ongoing project for many years, but by far not the only work at hand. There are more songs in the works that are already showing the growth of this new electronic artist. Its the combination of the music and the technology that drives my experiments and my passion and not to mention it calls my name. The Autonomist If you like downtempo, lounge or any funky beats wackiness well then you'll like The Autonomist, a must have for your ultimate funk music collection.
