Thank you for downloading this report, please feel free to pass it on as a representation of some of the true facts available today as required action to gain substantial traffic to your website or blog or any of your affiliate programs. Whilst no Search engine tactics are necessary I will be passing on some basic tips that will allow you to improve your websites optimisation. Otherwise the stark truth is there is no quick fix for search engine optimisation, no-matter how many gurus or anybody else may tell you, if they try to, walk away. This report will only deal with facts as I have found from my own research, testing and downright hatred for paying for information that can generally be gleamed from a search within your own favourite search engine. All of these tactics are:

1. As much as you will need. Just follow the instructions.
 2. Any other form of finding traffic is B**LSh*t. I point out why.
 3. Take your time "Everything comes to those who wait." We'd all like a quick fix to life's problems but unless you take the time now to sit back and look at exactly what are your problems and organise yourself better you'll always be at the mercy of someone or something. Take a breather there's no hurry here.
- Chapter 1. Free E-zine Advertising. The money is in the List, Does it have to be your list?
- Chapter 2. Create your own Viral E-book.
- Chapter 3. Using the power of your own Affiliates. How to set up your own affiliate programs for free.
- Chapter 4. Traffic Ex-changes and how to use them and why your main website shouldn't feature anywhere near them.
- Chapter 5. Extra Hints and useful Tips.
