

Kant On The Human Standpoint

[DOWNLOAD HERE](#)

Kant's philosophy considered under one unifying standpoint: his conception of our capacity to form judgements. In this collection of essays Beatrice Longuenesse considers the three aspects of Kant's philosophy, his epistemology and metaphysics of nature, his moral philosophy and his aesthetic theory, under one unifying standpoint: Kant's conception of our capacity to form judgements. She argues that the elements which make up our cognitive access to the world - what Kant calls the 'human point of view' - have an equally important role to play in our moral evaluations and our aesthetic judgements. Her discussion ranges over Kant's account of our representations of space and time, his conception of the logical forms of judgements, sufficient reason, causality, community, God, freedom, morality, and beauty in nature and art. Her book will appeal to all who are interested in Kant and his thought. EAN/ISBN : 9780511133480 Publisher(s): Cambridge University Press Format: ePub/PDF Author(s): Longuenesse, Beatrice
