Indie Singer-Songwriter 5 MP3 Songs FOLK: Modern Folk, ROCK: Acoustic Details: "Smoking Kills" is basically a re-packaging of Big Phony's first project "Fiction Other Realities" with 4 less tracks. The "Smoking Kills" EP was created mainly for promotional purposes, but a limited amount has been made available for purchase through this site and selected live shows. For those who own "Fiction Other Realities," there's nothing new to find but the "directional" artwork done by Brian Won of National TV (natl.tv) and a new hidden track.
