

Mp3 Carol Plunk - A Piece Of Me

[DOWNLOAD HERE](#)

Acoustic driven rock with a raw flavor that displays vivid and heartfelt lyrics 10 MP3 Songs ROCK: Acoustic, ROCK: 90's Rock Details: "This passionate performer is a star. Carol is such an inspiring and accomplished guitar player, you just have to see and hear her to believe how good she is. Heart and soul are what Carol Plunk puts into every note that she whispers or roars during her acoustic sets. This girl is a rock star waiting to happen." **Nancy Apple, Digital City, Memphis, TN "Carol Plunk is the total package. She is a big voice with so much heart, she is an accomplished guitarist on both acoustic and electric, and she and her song writing partner, Nancy, have an insight to lyrics that stirs ones mind as well as ones hearts. This girl is a natural born musician and I look forward to seeing how her awesome talent will grow as time goes on." **Reba Russell)Three time NARAS, Memphis Chapter, Female Vocalist Of The Year Award Winner) "Carol Plunk is a talented musician with a strong voice, but what truly sets Carol apart is her incredible songwriting ability." **Jeff Hepfer, burn yer radio "Carol's music is appealing on so many levels. There is no one in a crowd that would not find something to enjoy in her songs." **Buzz (Music Director-105.3 The Vision) "'A Piece of Me' is acoustic-based mainstream rock with a decided folkie bent and a strong female voice, very much in the vein of someone like Sheryl Crow, which is a pretty respectable niche." **Chris Herrington, Memphis Flyer "The latest offering by musician, Carol Plunk, who has made a name for herself in the world of Memphis music, is nothing short of terrific and a definite must for anyone who enjoys great music and outstanding vocals. Plunk's vocals show a noticeable amount of maturity and control. Her vocal diversity shines through on this cd like never before. In a word, the cd is awesome, and could be placed alongside any national artist recording today." **Laine McNeil, Family and Friends Magazine
