Curfew, please visit: [curfew.20m](http://curfew.20m.com)(see link on the left) Here are some press reviews and believe me those

vocals - the vocals are well performed I also enjoyed the backing vocal textures and rhythmic parts, which

Sound magazine Sept. 2002 "...'trip-hop', albeit with more live instrumentation than is often the case in
this genre, with live guitar, sax, cello, grand piano and trumpet embellishing many tracks. The album is
impressively produced, with some inventive beats and sonic detailing...." Musician magazine Dec.. 2002
