

Mp3 Gavin - Angels, Bombs & Martians

[DOWNLOAD HERE](#)

Folk/Funk - Deep Groove set in an acoustic / singer-songwriter framework. 10 MP3 Songs

ROCK: Folk Rock, FOLK: Modern Folk Details: gavin - Gavin Derek - is currently based in Los Angeles and has recorded three CDs of rhythmic, rock/funk music. gavin's lyrics offer an honest, essential point of view. His music is frank, direct and refreshingly unorthodox, combining pulsing alternative rock/funk rhythms with expansive orchestration, set in a foundation of folk guitar and bass. Imagine the melodic prose of Nick Drake, mixed with the funk/folk-rock of Ben Harper and Dave Matthews, with Tori Amos' sensual instrumentation. This, combined with gavin's knack for writing stark but inspiring lyrics, has earned him the label "alternative folk-funk". gavin likes to overturn first impressions, exposing emotions at their source. Born in Australia, raised in Miami, and criss-crossing America and Europe for most of his adult years, gavin has amassed volumes of life's moments and translated them into two collections of outstanding music. His debut CD, ANGELS, BOMBS MARTIANS, received critical acclaim for it's startling reality and lush, organic compositions. From the folk/funk, groove-driven social anthems "Witches" and "Red Angel", to the collection's love ballad, "Gft", this album takes the listener on a reflective journey through the most basic and telling of human experiences. Tracks "Red Angel", "Gift" and "Tattoos" have been featured on national television, including Lifetime Channel's "Beyond Chance", hosted by Melissa Etheridge, and MTV's series "Live Through This." "Witches" appeared on SPIN Magazine's Jet Set CD ROM insert of artists on it's RiffageFeatured Artists list. In 2001, gavin released his second CD, BREATHING HOLE, and received enthusiastic local and international attention. Like his debut album, BREATHING HOLE delves into the psyche and emotion of the human experience, but this time through a slightly darker lens. Tracks such as "Crazy" and "Possessions" explore the reality - and other-reality - of those on the periphery of our society. "This Distance" is a heartbreaking tale of the end of

love, and "Not About You" and "Head Lac" knock the listener back with their commentary and driving rhythm. As an added bonus, gavin's darkly haunting version of Don McLean's "Vincent" appears at the end of the collection, perfectly summing up the theme and wrapping up the story of this CD's journey. gavin's newest release - CAVE IN - is a collection of straight-up rock/funk and ballads, exploring and revealing the great joys and sorrows involved in dealing with love. Much like his first two albums, this is raw and merciless in it's exposure of emotions, but there is also an element of fun and release that is a refreshing evolution in his style. All three CDs were produced by Roman Morykit, of the band Gypsy Soul (gypsysoul.com). Currently, gavin is focussing on regional and college tours, while releasing the new CD. In May 2002, he was selected to showcase at the EAT'M Music Conference at the MGM Grand in Las Vegas.
