Singer/songwriter with roots in pop, tin-pan alley, country and jazz. Lyrically and melodically oriented with an emphasis on great chords. 12 MP3 Songs POP: Quirky, JAZZ: Traditional Jazz Combo Details: Joe is an Austin-based musician/songwriter who loves the process of creating songs and acknowledges the necessity of re-writing. Active in the Austin Songwriters Group, he lives for the communal thrill of being a musical sideman and is painfully shy about being out in front with the microphone (on second thought, maybe that's where the most heartfelt songs come from...) This group of songs explores a variety of songwriting genres country, rock, pop and jazz usually with a wry, quirky sense of humor/satire. And an unabated love for cookies. Musically infectious without the need for antibiotics and more fun than the time the kid dropped a dozen eggs on the kitchen floor.
