

Mp3 Kim Jones - Road Dreams

[DOWNLOAD HERE](#)

Warm but gutsy folk rock you can sling over your shoulder. 13 MP3 Songs FOLK: Folk Pop, ROCK: Classic Rock Details: New York native Kim Jones is a singer/songwriter based in Denver, Colorado. Jones' style has been described as folk rock with rich acoustic rhythms and melodic vocals supported by a rock groove. A finalist in the 1998 Lilith Fair Talent Search, Jones is an accomplished teller of tales whose music is as rich melodically as it is lyrically enchanting. "I like telling stories through my music" says Jones "Whether it's about places I've been or people I've met or to share life's journeys, my music let's me speak from the heart in a way that is very personal to me." A good example of Jones' storytelling is evident on many tracks of Road Dreams-especially "Journeymen" the true story of Jones' great grandparents immigration to New York's lower Eastside, and "Connecticut Towns" an ode to the Northwest corner where Jones spent her formative teenage years. "Connecticut Towns" is Jones' personal homage to a time and place that remains reassuringly constant in a world fraught with change. John Magnie of the Subdudes accompanied Jones on accordion and keyboards on most of the tracks of Road Dreams, along with other top flight musicians. The album was mixed and mastered by renowned studio engineer James Tuttle. Listen to Road Dreams, you'll be glad you came along for the ride.
