A psychedelic/funky band with catchy melodies, whimsical lyrics and rocking ukulele. 20 MP3 Songs POP: British Pop, ROCK: Psychedelic Details: Lloyd United is a band out of Hoboken, NJ with a Manchester sound. Their unique blend of Brit-pop, psychedelic, disco, rock-a-billy and sea shanties makes Lloyd United one of the most distinct and original bands today. With catchy songs, rocking ukulele, and energetic stage shows, Lloyd United has the aesthetics of a classic rock band yet still keeping their own inimitable sound. From Joe Wawryzniak of Jersey Beat: "Their latest effort finds them in typically fine fettle, with supremely bumpin funky-wonky melodies diggin deep and groovin up the proverbial soulful sonic storm, coolly raspy vocals, neatly slow-trudgin tempos and chunky boppin beats, and more hip, laid-back, casually assured attitude than the law should allow all ensuring that this honey makes for a very satisfying listening experience." From blowupradio.com: "On their recordings that have a much more dance/techno/rock vibe going, but live they...well someone described them the other day as a,"skiffle band", and that may not be far off the mark. They mix, "rockabilly, disco, and lounge music", into a pop rock creation that makes you want to dance and rock out at the same time, and to top it off lead singer Lloyd Gold can often times be seen playing a ukelele?!?! (their song, "ukelele boy band" is a laugh riot!) This band has fun on stage and it shows, and while their songs may be silly and fun even their stage presence has an obvious hint of silliness to it (they have a dancing robot on the stage...no I'm not kidding), their songs are so catchy, that they obviously put a lot of time and effort into them. It's nice once in a while to plug a good band like Lloyd United."
