We are based out of Lawrence, Kansas, a university town just west of Kansas City. In May of 2002, we released our second full length CD, entitled "Kickin' It With You." Featuring the commanding vocals of the always impressive LADY Z, this six-piece band is well-known for its captivating live shows. Primarily an original music band, we do have an large amount of classic blues/rock/soul covers we can throw out when the party situation demands it. After all, it is all about everyone having fun. Just no "Mustang Sally" or "Car Wash," please! Ninety per cent of our shows are club and theater dates, but we are always up for the occasional wedding reception or private party. Check out our web site, which has lots of cool information about the band. You can purchase our CDs off the web site, at our shows or from many of the internet music sites. Our newest record is starting to attract serious major label interest!
