[DOWNLOAD HERE](#)

A vivid composition of impressions, expressions, and emotions over a diverse musical landscape. 10 MP3 Songs SPOKEN WORD: With Music, SPOKEN WORD: Poetry Details: I was born in Maryland. Raised in and around the Washington area. Always loved music. Wrote poems that eventually became raps. Started a journal which became the foundation for what I am creating. Always felt that I had a story to tell. Want to create the soundtrack for my life. Now is the time. Together with my best friend and business partner/producer Jhunter we have formed a sound that conveys the spirit of like minded individuals everywhere. Pay attention because it is not hard to decipher the truth as we see it. There is no category for what I am doing. It's not rap. It's not poetry. It's not spoken word. Some have dabbled in it on their albums. Has anyone done a whole album of words, thoughts and sounds? This is only the beginning of what the world will come to know from Mr Whitfield and Jhunter.
