Guitar driven pop, Van's daughter 11 MP3 Songs POP: Today's Top 40, ROCK: Progressive Rock Details: Shana Morrison. "Thats Who Iam" [2006 bmi] Wow! Shes got a great cd here. Alot of really nice songs. I've seen her band a few times in the live venue. They rock your socks off, then leave. But they do offer their cd for sale at the shows and other places, ofcourse! The title of her cd? "Thats Who I am". I guess its her way of saying that Van Morrison is her dad, and shes fine w/ it. Theres no footsteps to follow, theres no shadow to walk in.[these are my opinions] The woman has come on strong, and her cd tells the story. It has all the things a listner would like...You got yer' rock, ya got yer' love songs, ya got your folk...If anything, the girl gave it all. The cd is over 54 mins. And its all entertaining! Plus shes really a sweetheart and her band kicks serious butt. Thats the truth as i know it to be. Enjoy! Timothy St.Clair, Producer. [but not of Shana]
