They just finished their latest CD in late July 2003, and the music has received very positive feedback and great reviews. It should be only a short time before these guys get noticed. They are also producing a new DVD that is a follow up to the new Native Tongue CD, which will include videos, songs, photos, lyrics, and interviews. Arc of Light has traveled the music world and back again, writing, recording, and playing live. From doing live shows in Iceland, Maryland, Wash DC, Virginia, Montana, to California, and along the Eastern US. Talent, originality, style, quality, and creativity are the types of words that come to mind when you try to describe their musical work. Each musician is multi-talented and has the ability to produce great music and songs in their own right, though when you combine their talents there is nothing but pure good music coming out. Arc of Light has played on TV shows, radio, internet radio, and has made several records, tapes, CDs, and music videos. They have also written, recorded, and produced music and videos for corporate training videos, seminars and meetings. They have also produced several songs and tunes for WEB sites, animations, and multimedia projects.
