ROCK: 60's Rock, ROCK: Psychedelic Details: Raised in a Christian family, Christian music has always been in my heart. Technology has finally gotten to a point that I can now fulfill the desires of my heart. I wrote, sang, played all the instruments, record and mixed all of my own music on this CD from home at Lakengren lake. I also design and layout all of my CD covers and package the CD's in the slim style case. I have five CD's now and I'm currently working on the sixth. Some of my songs were inspired by mission trips, others by controversial issues and others by my own life experiences. The song "cloning" is a cotroversial song in which I wrote because I feel very strong about this issue of today and that cloning is playing God and we need to take a stand against cloning and to pray for those who are involved. "Tell What You Know" is a song inspired by a mission trip I took. I have seen where people in other parts of the world are hungry for God's word and we should not be ashamed of his name and we should tell what we know about Jesus to all we encounter. I only charge \$5.00 for my CD's because my main objective is to spread the word. I also donate 10 of all sales to world missions. If my music helps anyone in anyway, that's payment enough for me. For details to send fan mail or for copies of lyrics or for more information and/or comments about me and/or my music, please feel free to email me. I love hearing from my Christian friends from around the world. " O praise ye the Lord, all ye nations: praise him, all ye people. For his merciful kindness is great toward us: and the truth of the Lord endureth for ever. Praise ye the Lord". PSALMS 117
