Scottish new country blues with songs full of wit and wry observation delivered up in the smokey voice of the remote West Highlands. 10 MP3 Songs COUNTRY: Country Blues, BLUES: Texas Style Details: Jim Hunter Hails from the West Coast of Scotland and has been playing his style of writing and performing over the past fifteen years. Typical of the area, his songs are in turns passionate and personal, his distinctive whisky soaked vocals are distilled into songs about the characters that inhabit this remote corner of the British Isles. This is his eight album and his second with reclusive producer Nick turner. The combination provides an antidote to the ills of most popular music and the sound will take you back to the birth of the delta blues.
