Ingredients include spirit and bone, mind and body, myth and mystery. Latent musical urges collided in the 1990s with a live Michael Hedges concert and the encouragement of local singer-songwriter friends, and John Klingler's love of guitar and song became re-awakened. As he explored his instruments with a new fascination, these unusual compositions emerged. After spending most of his formative years in New Mexico, John now lives and performs in North Carolina. His songs and performances have been variously described by listeners as magical, soothing, fascinating, and deep.
