industrial hard-rock. heavy guitars and bass, angry vocals, and pounding drums. 6 MP3 Songs ROCK: Hard Rock, METAL: Industrial Metal Details: What is Madlife? Madlife is as harsh as the world we live in. Madlife is what everything else isn't- cool. There is no whining in this band's audio assault. Inside Madlife you will find powerful vocals, aggressive guitars, and industrial sounding technology. Bands such as Ministry, White Zombie, NIN, KMFDM and more recently Rammstein and Static X have helped to influence the creations of Madlife. In 2002, Madlife released their debut album. It was produced by the highly respected Stoker (Ice Cube, Sting). The chemistry was so intense between Madlife and Stoker they decided to do a full collaboration in creating the second album. This second album has just been released; this CD is even more powerful than the first. In January 2005, Madlife released their first single "Angry" which is now being played on radio stations across the United States. If you thought the songs on the first CD were hard to get out of your head, check out the latest Madlife has to offer. Madlife is currently putting together a U.S. and European tour for later this year. Until then, Madlife will continue to captivate people with their powerful live shows. Madlife has been able to play with such bands as Adema, Kottonmouth Kings, and Prong.
