Clever pop songs with twists of wit and the macabre. 15 MP3 Songs POP: Quirky, POP: Bubblegum Pop
Details: An essential part of your complete pop breakfast! Nichole's musical performing career began in 1993 when she started playing solo gigs around Boston. This led to a two year stint in Greg Jacob's band, Weeping in Fits and Starts where one reviewer wrote she added a "Campbell Soup Kids" quality. In 1995, Nichole left WiFaS to form Penguin with ex-Sumac guitar player, Dave Egan. Members of Penguin were never sure whether people came to their gigs for their bright, poppy songs or to hear their cover of "Love is Like Oxygen". Building on the pop sound of Penguin, Orange Nichole was born. With the latest incarnation of her band, Orange Nichole, Clarke has enlisted three of Bostons finest musical talents to create clever pop songs with twists of wit and the macabre. Produced by Pete Weiss (Willard Grant Conspiracy, Seks Bomba, Don Lennon)
