

Mp3 Sisters In Song - Living Inside My Heart

[DOWNLOAD HERE](#)

We covered as wide a range as possible in these six original songs, all the way from crunchy heavy metal with guitars ablazin, to smokey jazz complete with horns and stand-up bass, to Cher style dance techno and romantic, from the heart in between. 6 MP3 Songs POP: with Electronic Production, METAL/PUNK: Heavy Metal Details: "Living Inside My Heart" is an appropriate title for my new CD because the songs come from the heart and from my life. The songs represent my adventures in life - from my "roller coaster" love relationships to my dear father who now "lives inside my heart". I have also resurrected my Uncle Lou's song from the past. Lou DePiro always wanted to be famous and wrote the lovely "I Wouldn't Mind Loving You At All" many years ago but was never able to complete it and bring it to the public. I promised him that I would and I am hoping to do just that many years after his death. It has also been a pleasure for me to work with my own son Louis, thus continuing the family connection. Those years of bass guitar lessons are now paying off! To continue the family connection further, my talented graphic artist daughter Dawn was responsible for the beautiful album cover. Lastly, I have worked very closely on this CD with my dear and talented friend Rita who has been like a sister to me (in fact we have been taken for sisters when our hair color matched by many people). Hence the name, Sisters in Song. We have been performing in musical theatre, choruses and talent event both separately and together for many years. I hope you enjoy listening to these songs as much as we enjoyed recording them along with our talented guitarist and music composer, John Fiscella who has put up with Sisters in Song!
