

Nanocoatings

[DOWNLOAD HERE](#)

From the contents: Preface- - 1- Synthesis, processing and application of nanostructured coatings- - 1.1- What is nanotechnology?- - 1.2- The role of size effect in nanotechnology- - 1.3- Nanoparticles- - 1.4- Production of nanoparticles- - 1.5- Applications of nanoparticles- - 1.6- Thin films- - 1.7- Production and application of thin films- - 1.7.1- Introduction to sol-gel method- - 1.7.2- Sol-gel chemical reaction- - 1.7.3- The effect of catalyst hydrolysis- - 1.7.4- Electric precipitation- - 1.7.5- The rotate coating- - 1.7.6- Scattering coating- - 1.7.7- Self layout- - 1.7.8- Plasma polymerization- - 1.7.9- Annealing- - 1.7.10- Heating oxidation- - 1.8- Applications of nanostructured coatings- - 1.9- Coating and surface engineering- - 1.10- Coating issues and applications- - 1.11- References- - - 2- Size dependency in nanostructures- - 2.1- Introduction- - 2.2- Nanocomposites and their production methods- - 2.2.1- Thermal spraying nano-composites- - 2.2.2- Transitional metal nitride coatings- - 2.2.3- Super rough and super hard nanocrystalline coatings- - 2.2.4- Nanocomposite coatings- - 2.2.4.1- Nitride nano-composite coatings- - 2.2.4.2- Nanocomposite coatings of Ni/Al₂O₃- - 2.2.4.3- Al based composite nano-coatings- - 2.2.4.4- Al/TiO₂ nanocomposite coatings- - 2.2.4.5- Al/Al₂O₃ nanocomposite coating- - 2.2.4.6- Nanostructured coatings of tungsten carbide/Ni-Co- - 2.3- Electrochemistry role in production of nano-coatings- - 2.3.1- Electro-deposition using porous templates- - 2.3.2- Nano-coatings properties- - 2.4- Mechanical properties- - 2.5- Corrosion properties- - 2.6- Hydrogen transition and sensitivity- - 2.7- Magnetic characteristics and ionic conductivity- - 2.8- Thermal stability- - 2.9- Nanocoatings applications- - 2.9.1- Structural applications- - 2.9.2- Functional applications- - 2.9.3- Classification of applications- - 2.10- Key points for development- - 2.10.1- Environment and stability- - 2.10.2- Weight and volume reduction- - 2.10.3- Intelligent layers and structures... EAN/ISBN : 9783642179662 Publisher(s): Springer, Berlin Discussed keywords: Beschichtung, Nanotechnologie, berzug (Technik) Format: ePub/PDF Author(s): Aliofkhazraei, Mahmood
