The Bibliography of Australian Literature is an essential reference for the reading, study and collecting of Australian literature. The Bibliography of Australian Literature P-Z is the fourth and final volume of a major collaborative national bibliographical project recording details of all separately published creative literature by Australian writers from European arrival in Australia to the end of the 20th century. Genres covered are poetry, drama, fiction and children's writing. One of the strengths of this unique multi-volume work is that it has no canon, aiming to include all works by all Australian authors regardless of perceived literary merit. For each work details of the first edition are listed, as well as significant new or revised editions and translations. Biographical details, awards and other additional information relevant to an individual author or title is also included.
