

Casio Rapman Samples

[DOWNLOAD HERE](#)

This is a cool Casio Rapman Kit samples. The samples were taken directly from the line-out of my own Rapman, operating on a fresh set of batteries and recorded into Logic Express at 16-Bit/44.1 kHz resolution. While being recorded, the output of the RP-1 was at the highest possible level to give you the maximum signal-to-noise ratio. The samples were then carefully cut and processed with a touch of compression to give them a little more punch This Sound Kit Includes : Kicks Snares hi hat cowbell rimshot scratch The Casio Rapman Kits is compatible with all samplers that use .wav files * Reason * Fruity Loops * Korg Triton * Yamaha Motif * Akai MPC 2000, 3000, 4000, 1000, and 500 * Gigasampler * Sony ACID * Ensoniq ASR-10 & ASRX * Any Sampler that reads WAVs All our sample packs are royalty-free, so you can use our samples for commercial use. Please note that sound kits are delivered electronically. We highly suggest the use of WinRar for extracting compressed files.
