

## Mp3 Crimson Sweet - Eat The Night

[DOWNLOAD HERE](#)

Raw, rabid and utterly without remorse this NYC trio gives rock the bloody spur with the fury of the Wipers and the ragged hooks of a souped up Cheap Trick 10 MP3 Songs ROCK: Punk, ROCK: Hard Rock  
Details: Crimson Sweet is Polly Watson (vocals, guitar), "Electric" Al Huckabee (drums), and Robbie Kongress (bass). Drawn together by a mutual love of the high life (peanut butter, Polaroids, and third-rate T. Rex rip-off bands), the three ex-schoolmates started playing loud art-damaged street-ravaged rock 'n' roll together in the dying days of the last millennium. Since then the band, whose members believe themselves to be at the forefront of the tasterati movement, has toured the Midwest extensively, the U.S. comprehensively and Europe expensively. Shake It Records is proud to present Crimson Sweet's second full-length album, Eat the Night, recorded and co-produced by the legendary Martin Bisi (Sonic Youth, Iggy Pop, Ramones).
