This Music will make you think about your life its your personel path to God and tailored to each of us 10 MP3 Songs GOSPEL: Contemporary Gospel, WORLD: World Beat Details: I was born on the south side of Chicago to Sarah and Larry Martin where as a young woman I began to write. I wrote about the trials of my life, the tribulations that I faced during those years, the years before I found Christ. I discovered that my suffering was nothing compared to what He suffered. My trials and tribulations were nothing compared to what He had gone through for me and He overcame it all to be my savior. With His Help I can overcome anything. He will see me through unto death. When I face trials I know now that it is testing of my faith to make me like gold. Trials bring forth character, character to walk for Him, to show compassion for those around me here and those around the world. Our suffering brings us closer to our Heavenly Father; it allows us to depend on Him building our relationship with Him daily. I feel that many of my trials keep me from becoming to comfortable in this world always reminding me that this is not my home, Reminding me that my home has no tears, no pain because my Heavenly Father will not allow suffering in His house. The goal is to bring people closer to Christ and our wondrous Heavenly Father. All of this has flowed out of me into this music. Music to show the love of the Father through His son. The perfect love of God. As you listen may God use this music for His glory to heal, bless wisdom and love with understanding. To Know that through everything, He is on your side. Weather you be a warrior or saint, know that Christs love will overcome all.
