

## Mp3 Jeff Murphy - Cantilever

[DOWNLOAD HERE](#)

The first solo disc by SHOES' member Jeff Murphy that harkens back to a stripped-down, home-recorded approach ala Emitt Rhodes or the first McCartney disc. Lotsa melodies and harmonies. 11 MP3 Songs  
POP: Beatles-pop, POP: Power Pop Details: Jeff Murphy, from the parenial band SHOES, ventures out on his own in this first solo CD. This 11-song collection was self-produced and engineered at home, in the spirit of the first McCartney album, Emitt Rhodes early works and Todd Rundgren's "Something/Anything". Foregoing the use of sequencers, drum machines and the "cut and paste" mentality that dominates much of today's music, Murphy plays all of the instruments on "Cantilever" and returns to the days of real, organic instruments being played by a human being instead of being programmed and triggered by a computer. The end result is a return to the feel and mood of early works by SHOES with a more stripped-down sound that really allows the melodies and individual instruments to show through.
