I offer visually stimulating modern instrumental / new age music with a hint of jazz undertones. 11 MP3 Songs in this album (50:07) ! Related styles: NEW AGE: Contemporary Instrumental, EASY LISTENING: Instrumental Pop People who are interested in Yanni Ray Lynch Vangelis should consider this download. Details: JNXMusic is a solo keyboard artist with classical piano training. When electronic instruments arrived with their multitude of new sounds to mix in with classical instruments, JNXMusic evolved along the lines of New Age but kept the classic structure of music, not just experimental for the sake of experimenting. Thus, this music is very visual with a broad spectrum of sounds used to make simple or complex compositions. Many people describe the music as something they have heard before such as in a movie perhaps. The music is easy to listen to, whether cleaning the house, lounging around, or trying to fall asleep at night! There is a hint of jazz in many of the compositions both in structure and presentation. All music is produced on a single Roland keyboard.
