

Mp3 Skandalon - Subluxation

[DOWNLOAD HERE](#)

Electronic Mayhem, Crushing Beats, Lush, Hazy Ambience 12 MP3 Songs ELECTRONIC: Industrial, ELECTRONIC: Ambient Details: After a 3 year hiatus, the electronic trio Skandalon re-emerges with Subluxation, its 2nd full length release. As on Cause Cure (2004), Subluxation fuses the organic and the ethereal to produce electronic music that feels 'composed instead of 'cut pasted'. Subluxation offers 12 sample heavy tracks with floating voices, menacing beats, and distorted melodies that have become the hallmark of Skandalon. Studiohead is the luxuriant single, featuring a bassy, mangled kick drum and a blip-ish melody youll not soon forget. The Trashd Remix of Studiohead is equally compelling, and thematic of the entire work. UnTrickable is a raucous romp of drumloops spoken-word samples, hearkening back to the efforts of Jack Dangers Meat Beat Manifesto. Also take note of Intraference, the anthemic dirge with a memorable 80s-style synth solo, and 'Drains', a dramatic three-part composition reminiscent of Tear Garden, In The Nursery, or even Vangelis. In short, Subluxation is the cure for the common electronic, and satisfies all extremes of the genres listenership. Enjoy.
