

Mp3 Splash'n Boots - Popcorn, Pickles, And Parrots

[DOWNLOAD HERE](#)

IPARENTING 2006 Outstanding 'best of the best' audio award winner. 12 MP3 Songs KIDS/FAMILY: General Children's Music, POP: with Live-band Production Details: SplashN Boots: Crunchy New Childrens Music with a Spicy Kick! Do you occasionally like to sing really loud along with Great Big Sea? Do you have The Beatles greatest hits on your IPOD? Do you like to relax with Simon and Garfunkel? Do you sometimes enjoy AC/DC at full volume? Do you remember meowing along with Fred Penner as he sang about that Cat who never came back? If so..... Introducing Splash'N Boots latest album.... A wildly rhythmic, uncontrollably catchy, and genuinely listenable musical birthchild of Raffi and The Barenaked Ladies..... Popcorn, Pickles and Parrots! Created by the young upcoming duo SplashN Boots (aka Taes and Nick), Popcorn, Pickles and Parrots is a varied mixture of musical styles: flipping between songs with cool southern groove to sea-faring eastern jigs, Old Fashioned hoe-down country, folk and Pop rock, this CD will most certainly get all members of the family body surfing in the living room. But the greatest part is that SplashN Boots will be dancing right along side you. The genuine honesty Taes and Nick bring to their vocals transports them right through the CD player into your house. Taes and Nick have returned to the roots of what Canada is famous for; Real music sung by real people, for all members of the family. To record this album SplashN Boots teamed up with one of Canadas top producers, Bob Doidge whose past credits include U2, Gordon Lightfoot, Sarah McLaughlin and Raffi, at Grant Avenue Studio in Hamilton. This album is top-notch. Taes and Nick have a very unique writing style that sets them apart from other childrens musicians, and the beauty of these songs is their universal appeal not only to children but audiences of all ages- Bob Doidge. A variety of weird and authentic instruments fills each track ranging from a genuine 5 piece brass band, to kitchen spoons, a farfeeza, and a solo played on the Deer Toes (real deer toes!). Each song has wonderfully creative instrumentation that coordinates specifically with the

lyrics. The drum kit for a song about our nations dollar was created entirely from hitting coin filled buckets, and Thelma Pickles (*the name of John Lennons first girlfriend) was inspired by the The Beatles. The wide range of instruments, vocal styles and rhythms will leave you and your children pulling out pots, pans and dried corn to make your own band to play along with SplashN Boots. Popcorn, Pickles and Parrots will inspire children everywhere to want to hop on the closest parrot and fly to the Eiffel tower for a big bowl of spaghetti. A trend will be started as families across the country clear away their living room furniture to have a hip shakin root-tootin square dance. So lets put our voices together, shake our shoulders to the beat and give a big WHOOPIE for "Popcorn, Pickles and Parrots!" Mom and Dad be Forewarned: Popcorn, Pickles and Parrots has been known to be a huge party hit long after the kids are in bed. Check Out: [splashnbootsfor](#) more details
