Modern Folk with strong traditional threads 11 MP3 Songs FOLK: Modern Folk, FOLK: Traditional Folk
Details: 100 Natural Music from the heart by an original songwriter with a traditional folk sound. Timeless tunes that feel right now as they would in the heyday of Joan Baez and Judy Collins. With a combination of finger style and classic strumming, Stephanie touches universal emotions with a range of edge, humor and energy. It all started by wandering into the late, great BMW bar in the Chelsea section of NYC during an open mike. A place where you couldn't mention you play guitar without being coerced into performing a couple of tunes. And the rest, as they say, is history...which is captured on her first full length CD: "Two Steps Forward" on the Acoustic Lounge Music label. Give a listen. Something just might move you. And that would make Stephanie very happy.
