A dark, loud, catchy, and raw mix of new wave synthesizer, punk guitar, power-pop hooks, and shell-shocked intellectualism. 6 MP3 Songs POP: New Wave, ROCK: Noise Details: The Tint's new EP takes the catchy songwriting and punk-fuelled delivery which has endeared them to critics and fans - and steers it to dark, dangerous places. The Tint started playing Boston barrooms in 2001. In 2002, they made a big step forward with the debut LP Captain - which earned them critical praise, CMJ airplay, and their first taste of industry attention. Now after a relentless schedule of high-energy live appearances - The Tint are back attacking their divebar roots with a firestorm of sonic overdrive and shell-shocked intellectualism. The guitars are mean. The lyrics are cerebral. The keyboards are ethereal. The vocals are haunting. The Eleventh Hour approaches. Are you ready?
