REVIEW FROM PROFESSIONAL SCREENWRITER and PLAYWRIGHT, MANNY J. DIEZ: "WORDS
FROM THE HEART" by Wanda Harrell is the kind of CD that, like all buried treasures, lies hidden away,

just waiting to be discovered. It will not be #1 on any chart, nor will there be a manic video made of it. No, that's not what Wanda set out to do. Her purpose was utterly simple, totally personal. She wanted to set down her thoughts, her memories, insights into her very soul with the hope others might share those same emotions and remember...recognize. WORDS FROM THE HEART can be listened to alone and the solitary listener will experience Wanda's words as if coming directly from her, to you. It can be listened to with another, hopefully a very special other, and both will hear words expressing what they have wanted to say to each other so many times. These are the words of a mature woman. A lady who has journeyed through her life, opened herself to its pleasures and pains, and found the courage to embrace both. If you are only a little bit of a romantic, you will love this CD. If you are a true romantic, it will make you resonate with an ebb and flow of subtle, and not so subtle passions. And if there is not a romantic drop of blood in your being, listen to it anyway. You just never know. The final piece, UNTIL DEATH DO US PART, is a longing, heartfelt look backwards into the beginning. A story of a man and a woman who truly, truly loved each other, and the life and family they built together. All that physically remains today is a shell of a home once filled with love, laughter and life, but now stands empty. Ah, but the treasured memories live on. And as you listen, you may hear the words, even the laughter, and perhaps smell the fragrances. Feel the warming glow from the fireplaces. Share a tiny moment of time with this gentle family. So precious. These words, thoughts, feelings are indeed, WORDS FROM THE HEART." M. Diez
