

Mp3 William Verkler - Sound Effects Se002

[DOWNLOAD HERE](#)

Sound effects for movie making 96 MP3 Songs EASY LISTENING: Background Music, ELECTRONIC: Soundscapes Details: While making music for albums or movie scores,I get many requests to provide specific sound effects. This Effects CD is titled "Horror Sci-Fi Movie Magic" SE002 do it yourself kit. It has 96 Sound Effects Sequences,from 10 seconds to five minutes long. Each Sequence can include many sound effects. The titles may seem repetative,but each sequence is different in one way or another. When editing these sounds into a movie using one of the many DVD editing systems,you can just take those portions of the sound effects sequence that work for the scene. Its a lot of fun to do,and this CD gives you a lot of choices. Track (92) EXAMPLE, combines My Music,and Sound Effects to give you an idea of what it all can sound like when put together for a scene. You need to listen to the entire track to hear all of the effects provided. Check the links to find my other Sound Effects, titled "Weather Related" SE001,as well as Music albums and Movie Scores by William Verkler. Some of these Sound Effects were used in Lia Scott Price's Movie "Dominion" now available on DVD at , Customflix.com/208472 , for \$18.99
