

New State Of Mcdm In The 21st Century

[DOWNLOAD HERE](#)

This book provides cutting-age research results and application experiences among researchers and practitioners in multiple criteria decision making areas. It consists of three parts: MCDM Foundation and Theory, MCDM Methodology, and MCDM Applications. In Part I, it covers the historical MCDM development, the influence of MCDM on technology, society and policy, Pareto optimization, and analytical hierarchy process. In Part II, the book presents different MCDM algorithms based on techniques of robust estimating, evolutionary multiobjective optimization, Choquet integrals, and genetic search. In Part III, this book demonstrates a variety of MCDM applications, including project management, financial investment, credit risk analysis, railway transportation, online advertising, transport infrastructure, environmental pollution, chemical industry, and regional economy. The 17 papers of the book have been selected out of the 121 accepted papers at the 20th International Conference on Multiple Criteria Decision Making "New State of MCDM in 21st Century", held at Chengdu, China, in 2009. All of 35 contributors of these papers are from 10 countries. EAN/ISBN : 9783642196959
Publisher(s): Springer, Berlin Discussed keywords: Operations Research Format: ePub/PDF Author(s): Shi, Yong - Wang, Shouyang - Kou, Gang - Wallenius, Jyrki
