

Jewish Power In America: Myth And Reality - Henry L. Feingold

[DOWNLOAD HERE](#)

Drawing upon five historical case studies, Henry Feingold highlights complexity and paradox as central to understanding the power of Jews in the United States. A wise and reasoned response to the polemicists, conspiracy theorists and antisemites of our time.

Jonathan D. Sarna, / author of *American Judaism: A History* /

Henry L. Feingold acknowledges the fact that American Jews have political power. But what kind is it, and is it inordinate compared to the power exercised by other ethnic and interest groups that thrive in the American polity? With the exception of an abiding concern with the security of Israel, there are no overriding public policy concerns that differentiate the Jewish voter from the informed, formally educated segment of the American electorate. The work presents the reader with a broadly comprehensive and highly informative picture of American Jewish participation in the American polity.
