LIN CITY (PC GAME) In Lincity you are a city designer, and have many objects/buildings to create your city out of, though most of the objects require you to research the correct technologies. You must provide jobs, food, and housing to your residents. You can use renewable energy to build a sustainable economy, or build rockets to escape a polluted and starving planet. System Requirements: Windows 98, 2000, ME, NT, XP, Vista & 7
