Aeon Drive is a techno/electronica band with more than 100 film and tv plays on ABC, CBS and ESPN. Our first love is the dark sounds of gothic techno and the dark stories that accompany them. Children of the Night/Vampire will be the first of three EPs, the second dealing with the Frankenstein theme, the third with the Werewolf theme. We strive not just to retell the original "scary" stories but to add modern variations on the theme. The three cuts are available in English, German, Dance Extended, and Instrumental versions. Check out the German cuts for an extra gothic feel. "Recording" magazine has called one of our prior rock cuts "simply one of the best independent studio recordings we've ever reviewed. It's crystal clear, clean, loud, punchy and rockin'." We hope you enjoy these dark musical tales - a perfect soundtrack for your Halloween moods any time of year.
