Back in the day it was not uncommon for fans to drive over 500 miles to witness the pulsating vocals of Big Will and his partners in song. Touring the Country.. Being part of a group such as U-Mynd, which has toured the country, played various venues, and made numerous television appearances could be enough to go to anyones head. But not Big Will. This soulful tenor describes himself as your everyday guy. What does set him apart is he truly believes in what he does... his music his art his passion. Destined To Sing When your mother and her seven siblings are singers, chances are you will be a singer too, explains Will. Trying to keep up with the adults, Big Will often harmonized with family members during family gatherings as a young child. By the fifth grade the local choir director had bestowed upon him the nickname, Little Luther. Quite fitting for a young creator of song who grew up emulating the likes of Luther Vandross, Marvin Gaye, and Michael Jackson. Big Will honed his skills even more through seven years of classical training at Emerson School of Performing Arts. All you got to do is Sing Stepping on stage, he brings it! Grabbing the mic, he controls it! From the first note, he owns it! Big Wills smooth, mellow ballads will relax you, allowing the listener to identify feelings and believe in music as a true romantic art form. But dont get to relaxed. Big Wills falsetto range has been known to emotionally charge his audience, resulting in women bursting into tears. On the party tip, his beats make heads bounce and crowds groove. Big Will may consider himself your everyday guy, but you definitely wont find talent like his everyday.
