Americana stew of rock, folk, country, blues, with three-part harmonies and hot licks, and with great story-telling in the lyrics. 9 MP3 Songs ROCK: Americana, FOLK: Power-folk Details: We're Americana and proud of it - it's a musical stew of rock, folk, country, blues, even some flamenco influences - with three-part harmonies and mostly acoustic instruments (and just enough electric guitars and keyboards to show we can rock when we want to). Call it Americana - call it roots music - call it modern folk-rock. We call it Blame it on the Dog music, and it mixes in just about every kind of American musical style to create our own unique Dog sound. Acoustic guitars, fiddle, bass and drums form the core, with keyboard and electric guitars added for flavoring. But the basic ingredients are the songs, and we believe that's the best foundation for music that you can listen to over and over again. Tastes great, less filling. Ummm good! Three singer/songwriters in the band each contributed to Busted, our debut CD. We'll take you to the islands ('Parallel Lines'), eavesdrop on a murder ('Summer Day') and play a little flamenco-gypsy for you ('Teresa'). We believe that there's a place in the world for lyrical, melodic songs that just also happen to rock and groove. Come on in to the Dog Pound and give us a listen. Arf.
