Electro death pop - A combination of traditional EBM with atmospheric guitars and driving synths. Think Nitzer Ebb, Skinny Puppy, New Order and Covenant 15 MP3 Songs ELECTRONIC: Industrial, ELECTRONIC: Dance Details: "Lose the Image" is the stunning full-length release from electro-pop-industrial hybrid CTRL. Faced with an uncertain future after 2001's "Is Burning...", keyboardist Brad MacAllister assumed vocal duties, and with guitarist Jason Fenimore, and Alex Virlios on synths they created an album full of driving, melancholic beats. Inspired by growing up in the wasteland of central Pennsylvania, "Lose The Image" combines traditional EBM with atmospheric guitars and sound collages to create something truly unique.
