

Mp3 Emily Bezar - Four Walls Bending

[DOWNLOAD HERE](#)

Surges and shifts with classically-structured music, played by a rock band that speaks fluent jazz. 10 MP3 Songs ROCK: Progressive Rock, ELECTRONIC: Pop Crossover Details: Emily's kaleidoscopic music is honest and true, full of passion, elegance, conflict and order. Her songs have an emotional range and lyricism rarely heard in pop today. Song movements collide and split in waves and sheets of sounds. Angles appear from nowhere and dissolve into curves before they cut the air. Emily's gorgeously warm electronic keyboards weave a smoky, liquid psychedelia around her lush voice. From the majestic guitar screams of "Velvet Eye" to the pulsing keyboard hypnotics of "His Everything," she has created an opulent tapestry of sound. "Textured, haunting art-rock... beautifully synthesizes elements of new music, jazz and pop. FOUR STARS" - Downbeat Magazine "Bezar has finely tuned, neoclassical jazz sensibilities akin to those of Keith Jarrett. Her tunes are filled with hollow fifths and aching, arching sevenths, as well as lush, delicious chords that wash up from time to time to illuminate her ethereal yet substantive vocals." - the Bay Guardian "Like encountering Kate Bush jamming with King Crimson." - the Wire, UK
