CD Description: "Your Own Sin" This was the band first original music album that was recorded professionally, during the holiday season 2002..... and released in the spring of 2003. Interesting side note: The title track "Your Own Sin" was recorded a year and a half prior to the rest of the album, and was a top 50 consideration for the nationwide John Lennon song writing contest. Cuts steeped in traditional blues include "Calvary Blues" and the Santana like tune "Signaling for Surrender". Songs that are more "radio friendly" and have a contemporary Christian pop style include: "Ever True", "Trust in You" and "More Like Your Son". If your into a more aggressive rock style, check out cut #5 "Just a Man". We hope you enjoy....God Bless.
