The Independent Music Production Compilation Album Features 20 World Class Independent Musicians who are all graduates of the Independent Music Production Program at Seneca College in Toronto Ontario. 20 MP3 Songs HIP-HOP/RAP: Hip Hop, POP: Bubblegum Pop Details: We're an organization of indie artists (mostly from scattered areas of Ontario) intent on the idea that we are a collection of capable, autonomous beings who don't need the interjection of major record labels to make our careers work and to be successful. We support. We cross-promote. We collaborate. We have creative exchange. We harmonize. We share wisdoms. We share insights. We share lessons learned from errors made. We assist in strengthening each others weaknesses. We help each other adapt to new skills and resources. We collectively cause each other to become progressive, experienced, dynamic artists and individuals. But most importantly, we're "Indie" because we are INDEPENDENT, and wear it like a badge of honour.
