Rock Roll band delving into their influences (KISS/Guns N' Roses/Cheap Trick) and pushing out 5 rockers with cool riffs, a big sound, and rockin' solos. 5 MP3 Songs ROCK: Classic Rock, ROCK: 70's Rock Details: "Butt rock? Fine. Call it whatever the fuck you want. But I can guarantee we have way more fun than a lot of those phony fucks out there. Rock and Roll!", declares frontman John Knapper. And after seeing them live, you'll know exactly what he means. Loud, high-energy, and obnoxious, Kwang is a Minneapolis foursome based upon one premise: PLAYING. These immature 20-somethings are stuck in their youth by their influences: KISS, Guns N' Roses, Motley Crue, and even newer bands like Jet and The Darkness. The mighty midwest has always been known to clamor for the 4/4 flavor of good old-fashioned rock n' roll, and all Kwang wants to do is deliver the goods. But don't forget about seeing them live. These 4 are passionate and grateful to be doing what they're doing, and the vibe is infectious. Knapper states, "People can mosh, dance, stand, stare clap, whatever they want. I envision our crowd as watching us with a shot in one hand, their other hand down another person's pants, and listening to us." Is that sex, drugs, and rock n' roll? You decide.
