Improvisations on Native American Flute and other instruments 10 MP3 Songs NEW AGE: Healing, WORLD: Native American Details: We are four guys brought together by the love of making music and in special by the Native American Flute. Without the flute we wouldn't know about each other. We meet on a regular base to have fun, to change ideas and to make music. Most of the time someone starts to play and the others join in. We never know where we are going, we do know that we like to go "nowhere". We guess that's what they call improvisation. What are we going to do in the future? Only the flute will tell. Another important issue about us is sharing : Everybody wants to share freely his talents with the others and that's what makes us "feel good" whenever we come together. We guess that's the meaning of life : sharing and feel good. And because we love what we are doing we want to share it with the world!
