

## Mp3 The Bemus Point - Infra Dig

[DOWNLOAD HERE](#)

Semi-improvised electronic music infested with ghosts, performed using thirty years of machines. 7 MP3 Songs ELECTRONIC: Experimental, ELECTRONIC: Ambient Details: The Bemus Point is an improvisational electronic duo featuring acid-jazz laptopist and thereminist James Spitznagel, and indie dork guitarist/synthesist Inverse Room. This is their first studio album together, and it features dozens of analog, digital, and software synths; electric guitar; theremin; homemade noisemaking devices and circuit-bent toys; and boatloads of effects pedals--all of which was spot-welded together in Acid 4.0 and overdubbed live. The result is halfway between Jean-Michel Jarre and the future, between jazz and psychedelia, between rock and roll and the string quartets of Dmitri Shostakovich. Pay us a visit at our web site, and come hear our improvised set near our home in central New York.
