

Mp3 Trans-dimensional Voice - Inside The Outside

[DOWNLOAD HERE](#)

Deep electronic music (primarily electro-industrial) with a solid experimental edge. 7 MP3 Songs
ELECTRONIC: Industrial, ELECTRONIC: Soundscapes Details: "Inside the Outside" was nominated for best album in addition to "Restoration" nominated for best song, both in the "Industrial/Techno" category in the Just Plain Folks Music Awards (year 2001). The album seems short at 7 songs. However, the total length of the album is a little over an hour ("Audible Vision" is a 30 minute long journey with a lot of variation). Each song has many twists and turns (using unorthodox arrangements adding an element of surprise), and uses a complex set of timbres to break away from the 'me-too' group. The first half of the album is fast paced while the second half is mainly mellow, a kind of Yin and Yang approach to the song order. The songs were composed in the early to mid 1990's and as such have a feel inspired by the great electro-industrial artists of that time. Check out the full tracks along with new material off the upcoming album at t-dv.com. Your support towards T-DV is sincerely appreciated.
