Create Your Own Software Without Any Coding Knowledge. Dear future software developer! If I told you that just 6 months ago I had never created a software product before would you believe me? Well believe it or not that statement is 100 Percent true, 6 months ago the thought of creating my own software product hadn't even crossed my mind. BUT within that last 6 months I went on a journey of discovery which ultimately lead me to creating a hugely successful software product that has made me more money than I could have ever thought possible. Do you know the funny thing - 6 months ago I didn't have ANY coding knowledge and guess what.....I STILL DONT!! That's right, I managed to create a hugely successful and profitable software product without writing a single line of code and what's more if I can do it then so can you! Absolutely anyone can go out and create their own profitable software product, and guess what? I am going to show you exactly how it's done, allow me to present to you "The Making Of Auction SOS!" In this brand new e-Book written by me I will show you step-by-step how I created my very own software product - Auction SOS! I will be pulling no punches and will be revealing some of the most guarded secrets that the software industry really don't want you to hear, just take a look at what you will

be getting from this E-Book: Why I chose software over an e-Book How I made back 75 of the software's cost within the first 24 hours of going on sale Why exactly do people give away FREE Demo's - What's in it for them? What research do you need to do before starting a software project? The secrets behind outsourcing How to talk with the technical people and how to word your specifications How to find the perfect programmer for your project How to create a residual income from any software product How to make money from software even if you don't make a sale! I also help you find out if software development really is for you Learn from my mistakes - don't do some of the things that I did! The secrets I reveal in this e-Book are the exact same methods that I used when creating Auction SOS! - I took the risks so that you don't have to. This guide really takes you through the software development process step-by-step, the guide is designed for novices and experts alike.
