emotion drenched vocals in the likes of eve6, lifehouse, and rem. a dark introspective into the alternative pop senses, for the mind. 6 MP3 Songs POP: 90's Pop, ROCK: Modern Rock Details: darlingd brings together three veterans of the Atlanta power pop scene to deliver "the perfect blend of angst-rock guitars and emotion drenched vocals...driving the line between dark wave and power pop," Mishmashmusic. darlingd features songwriter Daniel Taylor (Path of Allyson) on vocals, bass, and guitar, producer Gavin Fisher in charge of guitars, keys, and programming, and Greg Mensching (Wah Wah Jones, Tim Morgan Project) on drums. All three have previously collaborated in groups Henry.Sam.Ocean, and Dimmerswitch. darlingd summons the spirit of the alternative pop movement of the late 80's/early 90's, drawing frequent comparisons to Lifehouse, Toad the Wet Sprocket, and most frequently, Sugar. However, it is Daniel Taylor's alluring baritone voice (reminiscent of Depeche Mode's David Gahan) that brings a darker edge to darlingd's music. Norm Deplume of demoramadescribes Taylor's unique voice as "very restrained, very tasteful." Taylor, Fisher, and Mensching all took a turn at producing the six tracks on the telstarr ep. The ep was recorded on each artist's respective home turf: in Los Angeles at SuperFly Studios, and in the Atlanta area at 4Lane Studios and Firewall Studios. They are already working on a full-length album for darlingd that will be released in March of 2005, with no scheduled shows together at the present time. Come hear what Shut Eye Records owner Pete Knapp hails as, "a distinctive riposte to the mood pop of the late 80's and 90's. Through lightly battered guitar riffs and sub-baritone vocals, darlingd recaptures the spirit of the pop-meets-alternative movement without sacrificing inventiveness."
